

Collaborative Information Seeking:
Toward New Theories and Applications

GROUP 2010 Workshop

November 7, 2010

Sanibel Island, Florida

<http://collab.infoseeking.org/events/group2010workshop/>

Themes

- Theories and models for collaborative information seeking/retrieval/behavior (CIS/CIR/CIB) and related areas.
- Methodologies for studying various CIS issues, particularly, evaluation of CIS systems, and user behavior in CIS environments.
- Tools, systems, and methods for supporting CIS activities.
- Review or synthesis of existing theories, models, tools, or applications relevant to enhance and advance our understanding of CIS.
