

CIS'10

Collaborative Information Seeking: Toward New Theories and Applications

Workshop at ACM Group 2010 Conference
Sanibel Island, Florida

<http://collab.infoseeking.org/events/group2010workshop>

Organizers

Chirag Shah, Rutgers University

Madhu Reddy, Penn State University

Michael Twidale, University of Illinois at Urbana-Champaign

Schedule

8:30-9:00	Breakfast
9:00-10:30	Introductions and presentations by participants (everyone about 10 minutes)
10:30-11:00	Break
11:00-12:30	Theories and models
12:30-13:30	Lunch
13:30-15:00	Applications and practices
15:00-15:30	Break
15:30-16:30	Open session and wrap-up
17:00-18:00	Welcome reception (organized by the conference)
18:00-	Optional dinner at Hungry Heron (http://www.hungryheron.com/)

Objectives of the workshop

- Identify and discuss **theories and models** from various fields that help us **understand and evaluate** different aspects of CIS processes.
- Demonstrate or review existing **CIS systems**, and discuss **design sketches** for the future tools.
- Share ideas about current and future **applications of CIS**, and how the theories and systems discussed before could help us in facilitating those situations.

Get the most out of today

- Bring forth your ideas and issues.
- Keep an open mind.
- Discuss and disseminate.
- Use the workshop website resources
(<http://collab.infoseeking.org/events/group2010workshop>)
- Tweet! Hashtag: #cis2010

Many thanks to **Roberto González-Ibáñez** for developing online resources for us!

After the workshop

- Keep the discussions alive.
- The website will stay up
(<http://collab.infoseeking.org/events/group2010workshop>)
- Community website: <http://collab.infoseeking.org>
- Possibility of special issue.
